JOB REFERENCE: MID-LEVEL DATA SCIENIST

Dear Eng. Ahmed,

With three years of experience in backend web development, I have developed robust applications and scalable systems.

Additionally, I have over two years of experience in data science within the banking sector, focusing on data analysis, predictive modeling, and machine learning.

My teaching experience at the American University in Cairo has also enhanced my ability to convey complex concepts clearly and effectively.

My motivation to join your Company stems from the dynamic opportunities available in Saudi Arabia, a region experiencing significant growth and development in its infrastructure.

I am eager to contribute to innovative projects that align with the country's vision for the future and to further develop my skills in a challenging and fast-paced environment.

Thank you for considering my application. I am excited about the possibility of joining your team and contributing to your ongoing success.

incereely,

Omar Wael
