Plotly Dash

Google Analytics Core Reporting API

Data Scientist

Synapse Analytics

June 2019 – August 2019

Cairo, Egypt

- Identification of ideal warehouse locations for supply chain application.
- Automated reports to provide business insights for call center results.
- Development of a data pipeline that gathers the data from an ODBC and performs the necessary transformation.

OOP

Weighted K-Means Clustering

Rmarkdown

Tidyverse

SQL

Behavioural Security Intern

German University in Cairo

July 2018 – August 2018

Cairo, Egypt

- Clustering of users according to unique behaviour.
- Conduction of user mobile application behavior research.
- Successful identification of attacks through injection of attacker data.

Sklearn

Mean-Shift Clustering

Data Warehousing & Analytics Intern

Teradata

July 2017 – July 2017

Cairo, Egypt

- Training on loss functions and supervised machine learning.
- Workshop on ETL and applying necessary transformations to data.
- Investigation of data to provide business useful insight on client data.

Loss Functions

ETL

Business Intelligence

Wordpress Web Development Intern

eSeed

June 2017 – June 2017

Cairo, Egypt

- Website development using PHP and WordPress framework.

PHP

Wordpress

EDUCATION

Masters in Data Science

RWTH Aachen

2019 – 2022

Aachen, Germany

- GPA: 2.5 (Satisfactory)

Bachelors in Computer Science and Engineering

German University in Cairo (GUC)

2014 – 2019

Cairo, Egypt

- GPA: 1.56 (Very Good with Honours)

SKILLS

Programming

Python

R
